

INTEL IoT FUNCTIONAL SAFETY DAY

Enabling Technologies for the Internet of Things

July 25th 2017

Aula Pacinotti, School of Engineering, University of Pisa

In safety-critical contexts a fault could jeopardize the human life. That's why Functional Security is a central topic at INTEL, and it is among the most important challenges for the future of the Internet of Things.

Programme

Chairman: Prof. S. Saponara

9.00 Welcome and Introduction

Prof. F. Marcelloni, Rector Delegate for Internationalization, Univ. of Pisa

Prof. A. Landi, Dean of the School of Engineering, Univ. of Pisa

9.45 Dr. R. Mariani **Functional Safety for a connected and automated world**

10.15 Dr. M. Schaecher **Intel at a glance**

10.45 Coffee Break

11.15 Dr. M. Chiavacci **Intel Italy**

11.45 Dr. G. Sartori **FuSa: how to apply to real life**

12.15 Dr. M. Salardi **IoT Applications: Industrial and Retail**

12.45 Workshop Closing Remarks

13.00 Lunch
