

## INTERNSHIP PROJECT

- Area aziendale: Operations
- Sede: Lucca/Shanghai
- Ufficio/Reparto: Supply Chain
- Tutor: Supply Chain Manager
- Durata: 6 months
- Data di inizio stage: ASAP
- Rimborso spese e mensa aziendale gratuita

### TITLE OF THE ASSIGNMENT:

Material replenishment and inventory management optimization for the Supply Chain of Fabio Perini Shanghai

### PURPOSE:

The candidate will be required to analyze the current Supply Chain management at Fabio Perini Shanghai in order to optimize the way the material is purchased, stocked and handled.

### DESCRIPTION OF THE ASSIGNMENT:

The candidate should benchmark with existing best practices both within the Fabio Perini Companies and in other similar companies.

The expected outcomes from the assignment are:

- the definition of the replenishment rules to follow when purchasing the material,
- the implementation of the rules at the Shanghai plant,
- the establishment of the relevant processes as well as the preparation of a manual to make sure that the rules become part of the daily processes of the company

### OTHER INFORMATION

Lucca (Italy) plus some trips to Shanghai (PRC).

After an induction period at the headquarter in Italy, the candidate will be required to go to China to get familiar with the local organization and meet the key stakeholders.

The project will then be continued in the headquarter, possibly with additional trips to Shanghai as required.

### JOB REQUIREMENTS:

Corso di Laurea:	Management Engineering with major in Supply Chain
Conoscenze informatiche:	Office, Excel

Conoscenze linguistiche:	Good English Proficiency
Skills:	Quick Learner Open to Work in an International Team
